Education is one of the most valuable things we can possess. It influences how we see the world and enables us to contribute positively to it. Muna, I have been privileged to hold teaching and leadership roles in schools in England, Kuwait and the UAE.

Since arriving at Muna in September 2020, I have overseen the development of our pastoral care programme and have ensured that high quality teaching is taking place throughout the school. I have always been passionate about ensuring that school is a safe and welcoming place where children enjoy coming. It was a great honour to be appointed principal of this wonderful school in January 2024. I now have the privilege of leading the school on to the next chapter as we relocate to Saadiyat Island and open a Year 7 inaugural cohort.

Outside of school, I spend my free time with my wife and three children. At the weekend I enjoy watching my favourite football team play and when time permits it, playing squash and hockey. Over the coming months and years, I look forward to developing positive relationships and getting to know all of the students, their families and the wider Muna British Academy community.

## THE CURRICULUM

The English National Curriculum is among the most in-demand study options in the world, respected for its high academic standards and focus on developing confidence and individual thinking. The learning pathway is delivered through enquiry or 'project based learning', a method of teaching which inspires a love of learning and deepens a student's knowledge by challenging them to complete realworld tasks. In this way, the English National Curriculum is considered to be one of the most engaging of all.

The teaching of Arabic subjects is based on the guidance and materials prescribed by the Ministry of Education. It keeps local and other native Arabic

speaking and Muslim children familiar with their national identity and religion. In addition, our international students gain an understanding of the UAE's heritage which helps enhance mutual understanding, peaceful co-existence and cross-cultural harmony and tolerance.

In KEY STAGE 3 (YEARS 7 - 9) Students continue to build on a solid foundation in key subjects like English, mathematics and science while also introducing a wide variety of other disciplines to help students develop a range of skills. Key Stage 3 deepens their learning and introduces more specialised subject content, preparing them for the academic challenges of GCSEs in Key Stage 4.
